

BioScience

Chemicals

HOW WE DO IT

We are industry experts who provide supply chain excellence for BioScience and Chemical companies. Our team of logistics experts meet complex compliance regulations, ensure operational efficiencies, reduce costly disruptions, and provide clear communication at every step. Risk mitigation and peace of mind are our specialties.

Our **Adaptable** Services

Our dynamic portfolio gives us the ability to offer flexible, reliable services to even the most challenging destinations. Managing sensitive materials requires risk mitigation that our extensive logistics services and facilities can customize to your needs. As expert leaders in logistics, mission-critical shipments are our specialty.

CHEMICAL COMPETENCY CENTER

A dedicated, specialized support team to advise, audit, or arrange repacking of damaged or rejected shipments due to screening issues.

SUPPLY CHAIN MANAGEMENT

import, export, customs brokerage, foreign to foreign shipping, hazmat paperwork, letters of credit, & third-party billing.

WAREHOUSING

All packaging, labeling, prescreening, and auditing goes through our expert team, ensuring regulatory compliance.
