

## Construction

### Construction of the Turtle uNLtd:

1. Plastic angle section to protect the foam in the crate interior
2. Insulating panels
3. Interior foam: polyurethane foam and Plastazote
4. Plywood panel made of birchwood coated with Velcro
5. Foam encasing the plywood panels
6. Insulating corner brackets
7. Crate made from high-tech compound materials with foam core
8. Nylon-HMPE sliding bolt
9. Protective rubber corner-pieces.
